hujinzhi.com/cn

lianxi@hujinzhi.com, hu.jinzhi@outlook.com

## 教育背景

#### 数学本科

2021 年 9 月-2025 年 8 月 (预计)

## 滑铁卢大学 (University of Waterloo)

安大略省,加拿大

- -计算数学专业 (Computational Mathematics)
- -组合优化辅修 (Combinatoric and Optimization Minor)
- 经济辅修 (Economics Minor)

目前在读大四下学期, GPA 86.95/100 (优秀)。 在八个 full-term 学期中获得七次学期优异成绩。

## 技能

编程语言: Python (Pandas 及数据处理, API 运用, 线性/非线性优化, 及基础编程), R (数 据分析和 Stochastic processing), C (基础编程), Bash (基础运用), MATLAB (线性/非线性优 化, 及基础矩阵分析)

专业技能: 统计和概率论, 非线性优化, SQL, PyTorch, PySpark, 运筹学模型 (OR optimization model), 组合 (Combinatorics), 随机过程 (Stochastic process), 布朗运动 (Brownian motion), 伊藤微积分 (Itô calculus), Black-Scholes 公式, 随机微分方程 (Stochastic differential equation), 商业金融基础 (利率和债, β, IPO 基础, Call/Put 期权), 统计模型对金融 市场模拟, 方差缩减方法 (Variance reduction techniques)。

OS: Linux (熟悉 Ubuntu, Raspberry Pi 系统), Windows, 及 MacOS。

网站管理与维护:了解 HTML,了解 ftp 等条款。

其他技能: 熟练使用 Microsoft Office, LATEX, 可在 Microsoft Office 和 LATEX 中熟练打出数 学公式, 及英语能力 (具备 4 年加拿大英语区生活经历)。

## 实习经历

## 兴业证券金融工程组(上海)

2023 年 6 月-2023 年 7 月

该团队获得 2023 年"新财富"行业排名第一。

- -学习并翻译了海外量化学术期刊优秀论文;
- -搜集并整理了有关张量在金融工程中的运用,协助张量在因子选股中的研究;
- -通过分位数组合及修改特征择时 CT 指标,论证基金卖出能力的重要性,产出《基金买入和卖出能力的启示在 A 股上的实证》。

## 特长及爱好

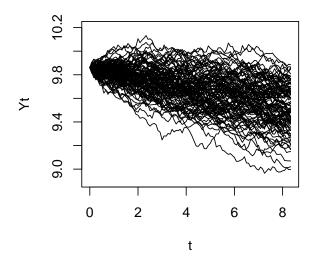

爱好音乐、摄影、美食,对中国历史和文化有浓厚兴趣

具有较强信息收集能力,不拖延,能高效完成任务

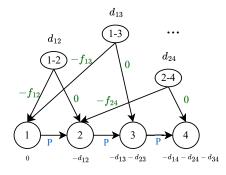

公共交通(公交迷,熟悉了解武汉与上海公交、地铁线路的已建/在建等相关信息)

## 项目

统计模型对金融市场预测

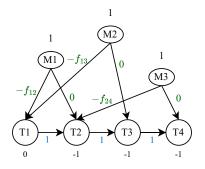

从公交车售票模型到会议规划

P: Capacity of the bus

 $d_{ij}$ : Demand for a bus ride from i to j

 $f_{ij}$ : Fare for a bus ride from i to j

 $f_{ij}$ : Value of meeting from i to j

## 时间序列分析

注: (r) 代表右侧 y-轴

### Time-series decomposition on CSI300

#### EDUCATION

#### Bachelor of Mathematics

September, 2021–August, 2025 (estimated)

#### University of Waterloo

Ontario, Canada

- Computational Mathematics Major
- Combinatorics and Optimization Minor
- Economics Minor

Currently in the 4B term with a cumulative GPA of 86.95/100 (excellent standing).

With six term distinctions out of seven full-time terms.

### SKILLS

Programming languages: Python (Pandas and data processing, API use, linear/nonlinear optimization, and basic programming), R (data analysis, and Stochastic processing), C (basic programming), Bash (basic usage), MATLAB (linear/nonlinear optimization, and basic analysis on matrix)

Technical skills: Statistics and probability, Non-linear optimization, SQL, PyTorch, PySpark, Operations research models (OR-models), Combinatorics, Stochastic process, Brownian motion, Itô calculus, Black-Scholes equations, Stochastic differential equations, Business finance basics (Interest and debt,  $\beta$ , IPO, Call/Put options), Simulations on financial markets using statical models, Variance reduction techniques.

OS: Linux (familiar with Ubuntu, Raspberry Pi OS distros), Windows, and MacOS.

**Hosting:** Working knowledge on HTML, and protocols like ftp.

Other Skills: Microsoft Office, LATEX. Proficient in Mathematical typing on Microsoft Word and LATEX.

#### Internship

Financial Engineering group, Industrial Securities (兴业证券金融工程组)

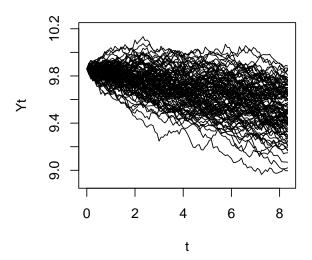

June, 2023–July, 2023

Shanghai

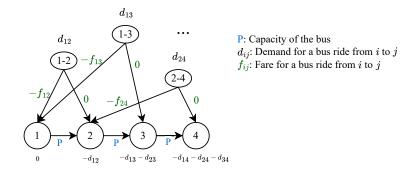

The first ranked team of the industry on 2023 New Fortune rankings.

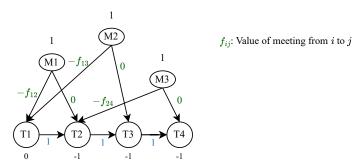

## PROJECTS

Forecasting the financial market with statistical model

From Bus ticketing optimization model to meeting scheduling

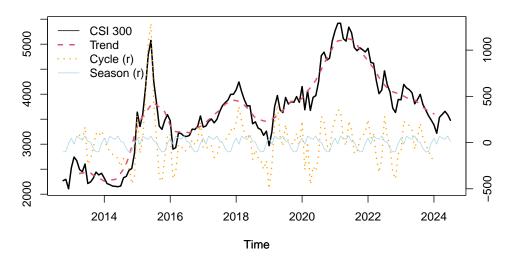

Time-series decomposition

Please note: (r) means right y-axis

## Time-series decomposition on CSI300
